DOMEX superfresh™ growers

Seckel

Anjou • Comice • Bosc • Seckel • Red Anjou • Red Bartlett
Bartlett • Forelle • Asian

Flavor Profile:

These tiny maroon and olive green colored pears are exceptionally sweet (so sweet that sometimes they are called "sugar pears") making them an excellent choice for snacks, pickling, or as a garnish. No color change when ripened.

Preparation ideas:

Snack-sized Seckels added to lunch boxes or bags are appreciated, particularly by children who love their extremely sweet flavor. Seckels are small enough to be canned whole, making for a striking look
